PROFESSIONAL SUMMARY

Senior iOS Developer with 7+ years of experience building consumer-facing mobile applications for high-traffic platforms. Specialised in authentication systems, user onboarding flows, and secure account management solutions. Proven track record of leading cross-functional teams, mentoring developers, and delivering scalable features that improve user conversion and engagement across marketplace platforms.

PROFESSIONAL EXPERIENCE

PHYSICS WALLAH PRIVATE LIMITED

Noida, IN

Senior iOS Developer [Application: Physics [wallah](#) , [PW Meded](#)]

May 2023 - Present

- **Led authentication and onboarding optimisation**, serving 70k+ users, implementing secure user registration flows and account management features that improved onboarding conversion by 25%.
- Developed end-to-end **revenue functionality** by integrating **Apple In-App Purchase** for online subscriptions/one-time purchases and **PayU** for offline payment flows with transaction validation and error handling.
- **Re-architected** major user-facing modules using SwiftUI, improving code modularity by 40% and enabling faster feature iteration across multiple app variants.
- Implemented comprehensive **security measures, including SSL pinning**, secure data handling, and fraud prevention mechanisms, ensuring a 99.9% secure transaction rate across all payment flows.
- Own end-to-end delivery of major modules from requirements analysis and solution design to code implementation, testing, and release, collaborating cross-functionally.
- **Achieved a 99.5% crash-free rate** improvement (up from 94%) through performance profiling, memory leak resolution, and lifecycle management optimisation.

SPYNE.AI

Gurgaon, IN

Senior iOS Developer [Application: [Spyne.AI](#)]

Oct 2022 - April 2023

- **Developed Spyne SDK framework** reducing technical debt and improving overall development velocity by 50%, enabling seamless integration across multiple client applications
- **Built an innovative AR-powered video capture solution** that enhanced AI processing accuracy by 20%, focusing on user experience optimization and performance
- **Implemented offline-first architecture** for video and file upload systems, significantly boosting operations team productivity and user engagement in low-connectivity scenarios

OODLES TECHNOLOGIES

Gurgaon, IN

iOS Developer [Application: [Wethio Wallet](#), [Wethio-Exchange](#), [Coachable](#)] Jan 2020-Sep 2022

- **Scaled the iOS team from 2 to 10 engineers**, establishing robust development processes, code review standards, and architectural best practices for marketplace applications.
- **Delivered high-impact features across diverse domains**, including e-commerce checkout flows, blockchain wallet authentication, and sports analytics, consistently meeting tight deadlines and quality standards.
- **Optimised app performance and user experience** through strategic network caching, background operation improvements, and user interface enhancements, resulting in 30% faster load times.
- **Provided technical leadership in client-facing scenarios**, conducting demos, technical discussions, and feedback sessions to ensure alignment between stakeholder expectations and technical delivery.

TECHGROPSE PRIVATE LIMITED

NOIDA, IN

iOS Developer

Jan 2018-May 2019

- **Contributed to 5+ iOS applications** and delivered 10+ major user-facing features, gaining comprehensive experience in consumer mobile app development
- **Transitioned from iOS Developer Intern to full-time developer** based on strong performance and technical contributions to authentication systems and user onboarding flows

SKILLS

- **Programming Languages:** Swift, SwiftUI, Objective-C, C, C++, Data structure & Algorithm
- **iOS Platform:** UIKit, SwiftUI, Combine, AVFoundation, MapKit, Multi-threading, SOLID, URLSession, Async/await, In-App Purchase, Push Notifications
- **Tools & Framework:** Swift Package Manager, CocoaPods, Firebase, Sentry, SwiftLint, and analytics integration.
- **Architecture:** MVC, MVVM, Creational Design pattern [Singleton, Factory, Builder], Structural Design Pattern [Facade, Adapter], System Design, SOLID Principle
- **Database & Data Handling:** Core Data, KeyChain, UserDefaults, JSON, File system
- **Testing and Debugging:** XCTest, Unit Test, Memory Management
- **Language:** English (Professional), Deutsch (A1)

EDUCATION

DR APJ ABDUL KALAM UNIVERSITY

Greater Noida, IN

Bachelor of Technology (Computer Science)

2013-2017
